

PECB Skills:
Modern Learning for Modern Teams

PECB

PECB Skills is a micro-learning platform built for modern organizations—teams that need continuous upskilling in Cybersecurity, Compliance, AI governance, and Risk Management—without long training sessions or high costs. It is specifically designed for professionals responsible for implementing, managing, and auditing frameworks and management systems across the Digital Trust landscape, including Information Security, AI, Privacy, and GRC.

With short, expert-led capsules and structured learning paths, PECB Skills helps organizations develop their workforce efficiently, consistently, and globally.

Why Organizations Choose PECB Skills

1. Training That Fits the Workday

- 15-minute capsules
- Flexible, on-demand learning
- No disruption to daily tasks

2. Always Aligned With Global Standards

Built to help teams stay aligned with:

- ISO/IEC 27001
- ISO/IEC 22301
- GDPR & Data Protection
- NIST
- AI Governance (ISO/IEC 42001)

3. Affordable, Scalable, Practical

- One subscription = all content
- No hidden fees
- Ideal for teams in Cybersecurity, Privacy, Risk Management, Compliance, AI, Auditing, and ICT

A Clear, Progression-Based Learning Framework

Capsules

Short 15-minute video lessons led by certified professionals.

Modules (1 hr)

Each module = 4 capsules + attestation of completion (1 CPD per module).

Competencies (4 hrs)

Each competency = 4 modules.
(4 CPDs) Builds a full skill area like ISO 27001, GDPR, Cybersecurity, Auditing, AI Governance, etc.

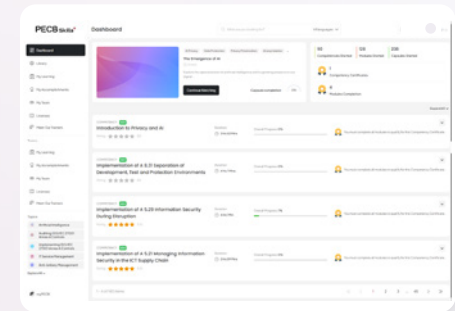

Certification

After completing a competency, users can take an exam to become a **certificate** holder.

What the Platform Looks Like

Dashboard

Track progress, completed modules, started modules, and recommendations.
